

# **XXXVIII IAH Congress**

**Groundwater Quality Sustainability  
Krakow, 12–17 September 2010**

**Post Congress Circular**

## **Dear Participants and Guests of the IAH2010 Congress in Krakow**

The IAH2010 Congress held in Krakow from 12 until 17 September 2010 went down in history.

From many reactions of the delegates given both: during the Congress and afterwards, we may conclude that the IAH2010 Congress in Krakow has been very successful, and most delegates judged it as an important scientific and social event.

This could only happen because of you — more than 520 Delegates from over 70 countries all over the world — who accepted our invitations and participated in the Congress. We were very pleased and honoured to host all of you in Poland, in the Royal Capital City of Krakow.

The Organizing Committee would like to thank all participants, in particular the presenters of oral and poster presentations. There were your valuable scientific works that made this event so excellent.

The Organizing Committee would also like to acknowledge the Scientific Committee Members and Chairs of scientific sessions for their active role in preparing and conducting the scientific programme. Your contribution represented a substantial part of the success of the Congress. We thank you for your kind and fruitful cooperation.

And last but not least, we would like to express our great appreciation for all sponsors of the XXXVIII IAH Congress.

Thanks to you we could provide the Congress participants with an excellent environment to meet and discuss.

With kind regards and best wishes

Stanisław Witczak
